Stenströms

Swedish Quality since 1899

In the late 19th century, August Stenström, a visionary tailor from Helsingborg, earned a reputation for crafting the most exceptional shirts. His impeccable craftsmanship caught the attention of the city's society and soon, word spread beyond Sweden's shores. Sea captains passing through Helsingborg proudly carried their Stenströms shirts home, unknowingly sparking our brand's first international export.

By 1899, driven by his growing success, August transformed his small tailor shop into a state-of-the-art shirt factory. Just over a decade later, in 1912, Stenströms had become Scandinavia's leading shirt manufacturer, employing over 140 skilled artisans.

Swedish Craftsmanship, International Prestige

Today, Stenströms is globally renowned for its superior shirts – crafted with precision, using the finest materials available. Each piece is designed not just for style, but for an impeccable fit and feel, instilling a sense of effortless confidence in its wearer. We call it Swedish Confidence.

A Royal Seal of Approval

For years, Stenströms has had the honor of serving the Royal Court of Sweden. As a holder of a royal warrant, we proudly bear the distinction of "*By appointment to H.M. the King of Sweden*", a testament to our commitment to excellence in every garment we create.

Perfection in Every Detail

Exceptional fashion is born from meticulous attention to detail. At Stenströms, we go to great lengths to source the finest fabrics, collaborate with the most skilled designers, and uphold uncompromising standards of craftsmanship. Our reputation for high quality and design is well-known among Europe's leading suppliers, who provide us with 100% Twofold cotton fabrics, most of them woven from the finest Egyptian cotton.

While technology has evolved during Stenströms more than 125 years in the shirt business, some traditions remain timeless. The dedication to artisanal craftsmanship is what continues to define the renowned Stenströms quality to this day.

Stenströms Shop Concept

The Stenströms shop concept has been designed based on inspiration from Scandinavian minimalistic architecture, a heritage of more than 125 years in the shirting business with attention to high quality details.

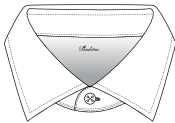

Materials used give a feeling of luxury and craftsmanship, such as wooden fixtures in American walnut, leather details from Tärnsjö Garveri and illuminated shelves. The shop concept allows you to be creative, achieving great exposure and strong brand identity.

Timeless craftsmanship

1899 is a limited edition shirt line where we have put all our skills to test by pushing ourselves to find the world’s finest fabrics, shape every detail into perfection and combine it with innovative tailoring. Our ambition was to create a shirt of outstanding excellence.

- 1. One body-size per collar-size.
- 2. Split yoke for better fit.
- 3. Most fabrics are made from American long staple Supima cotton.
- 4. Set-in sleeve, a technique often used in suits for the natural look it induces. The top of the sleeve is larger than the armhole opening, which makes it easier to fit the garment over the arm, and facilitates movement at the shoulder.
- 5. Mother-of-pearl buttons. Each button is unique as they are handcrafted from natural shells. The buttons are cut and the holes are drilled, either by hand or by machine.
- 6. Denser stitch length. We use 9 stitches per centimetre.
- 7. A mouche is used to strengthen the bottom and side seam.
- 8. 2 mm top stitching on collar, cuffs and front.

Our limited edition shirt line comes in two shirt models: 1899 Slim and 1899.

1899 Slim has a slimmer fit, also with two darts in the back. 1899 has a tailored fit to suit all men, with two darts in the back.
